

Wyoming Stream Team – Graphic Organizer for Chemical, Biological & Physical Parameters

	What is this parameter?	What are the natural influences of changes in the concentration of this parameter?	What are the human influences of change in this parameter?	Why do we care about this parameter? How is this parameter impacting the stream system?	How do we measure this parameter? How do we interpret our results?
pH					
Alkalinity					
Temperature					
Dissolved Oxygen					
Macroinvertebrates					

Wyoming Stream Team – Graphic Organizer for Chemical, Biological & Physical Parameters

	What is this parameter?	What are the natural influences of changes in the concentration of this parameter?	What are the human influences of change in this parameter?	Why do we care about this parameter? How is this parameter impacting the stream system?	How do we measure this parameter? How do we interpret our results?
Stream Substrate & Shape					
Stream Flow/ Velocity					
Turbidity					
Conductivity
